

1.What is Shopify?

Shopify is an ecommerce platform you can use to build an online store. It allows you to sell both online with your own website and/or in person using a point-of-sale app.

- 1.1 Website Creation: Shopify offers a user-friendly website builder that allows users to design and customize their online stores. It provides various templates and themes to choose from, making it easy to create a professional-looking website.
- 1.2 Product Management: Users can easily add, edit, and organize their products, including images, descriptions, and pricing. Inventory management tools help track stock levels and sales.
- 1.3 Payment Processing: Shopify supports various payment gateways, allowing businesses to accept credit card payments, PayPal, and other payment methods securely.
- 1.4 Security: Shopify takes security seriously, offering features like SSL certification, data encryption, and protection against fraudulent orders.
